

A BSM TECHNOLOGIES COMPANY

Wireless GPS Tracking Unit
Produced by Lat-Lon, LLC
Telephone: 877-300-6566

**TRACKING
HAS NEVER BEEN
SO SMALL
& SIMPLE**

A BSM TECHNOLOGIES COMPANY

THE COMPACT TRACKING UNIT BY LAT-LON

More than GPS

THE LAT-LON ADVANTAGE

SOLAR-POWERED BATTERY

More Power=More Data

Lasts 7+ years with reporting as frequent as every 10 minutes.

SMART TECHNOLOGY

Recognizes data patterns and changes reporting parameters based on what's important to you.

WEB REPORTING

Makes it easy to review all assets in one place with unlimited access to data and reports.

SELF-CONTAINED

And small for ease of installation in tight spots.

ADJUSTABLE THRESHOLDS

Customize thresholds and update firmware over-the-air without downtime.

MORE THAN GPS

IMPACT: With filtered g-force values on all 3 axes, plus delta velocity calculations, fully graphed impact and deceleration values can be broken down for future prevention.
